## JOKERS TO PAY FOR REPAIRS TO OLD DEADWOOD COACH

There is to be no further prosecution of the three young employees of the Bureau of Engraving and Printing who three months ago rolled the old Deadwood coach down the steps of the Post-office building and started to take a ride on Pennsylvania Avenue. They were arrested and it was thought they would be severely punished.

An arrangement has been made whereby the young men are to pay for repairs to the ancient coach and thus escape further proceedings. The coach was taken to a carriage making establishment yesterday.

## MANY NEW CARS FOR BALTIMORE AND OHIO

The passenger business of the Baltimore and Ohio has increased so rapidly during the past three years as to necessitate the purchase of a large number of passenger equipment cars.

During the past two years 100 passenger coaches have been bought, and the total equipment will be increased next year by the addition of 40 coaches, each 60 feet in length; 15 60-foot baggage cars, 15 60-foot combination baggage and passenger cars, 10 combination mail and baggage cars, and two 40-foot postal cars, at a cost of nearly \$600,000. Contracts will be let in the near future.

The improvements that have been completed and those in process of construction have attracted much attention, and it is expected that by the spring of 1904 the line will have to care for a very largely increased business, in addition to the travel to the St. Louis Exposition.

The passenger revenue of the Baltimore and Ohio now exceeds \$16,000,000 a year.

The parade will be led by a detachment from the Marine Band consisting of twenty pieces.

## STEAMFITTER HELPERS MAINTAIN FIRM FRONT

Decide Not to Return to Work Until Demands Are Granted.

Prospects of the local steam fitters' helpers receiving the increase of wages for which they asked Wednesday, are growing brighter every day. For fear that some of their men might get "goosefleshed" and return to work without the increase from \$1.90 to \$2 per diem, the officers of the Steam and Hot-water Fitters' Helpers' Union held a meeting in Bessler's Hall, 922 Pennsylvania Avenue northwest, last night, and it was unanimously agreed that the men should remain out until such time as the masters saw fit to grant the demand made upon them.

At the meeting it was announced that two firms, which employ about twelve or fourteen men each, had granted the increase, and as a result about twenty-five helpers will return to work Monday at \$2 a day.

About seventy or seventy-five helpers are still out. They are employed by five or six companies, the officials of which vow they will not grant the increase of 40 cents a day. The helpers believe differently, however. They live in hopes that all of the masters will agree to the new scale of wages within the next few days.

Since the rejection of an arbitration proposition by the strikers on Wednesday there has been nothing said or done toward bringing the two interested parties together to effect a settlement.

## FOUR SMALLPOX CASES DISCOVERED IN ONE DAY

Nurse at Home for Incurables One of the Patients.

Four cases of smallpox were discovered by the District Health Office yesterday. A nurse at the Home for Incurables, Irene Parker, has been sick with the disease for several days. Investigation showed that she had recently visited her sister, Mrs. Estelle Mundie, of 2709 Fourteenth Street northwest. The young woman was removed to the smallpox hospital, and the Home for Incurables was quarantined.

Investigation at the Fourteenth Street house revealed the fact that Mrs. Mundie and a child, Sarah, two years old, had been suffering from the disease, and were almost well. They were taken to the smallpox hospital, but were later allowed to depart. Mr. Mundie and a boarder, Edward W. Coghill, twenty-two years of age, were also taken from the Fourteenth Street house Thursday, and yesterday Coghill developed the disease. He was removed to the hospital. None of those having the disease had been vaccinated. The Health Office officials believe that another child in the same house, who has left the city, also had the disease. The whereabouts of the absent one will be investigated.

## WORK ON FILTER PLANT PROGRESSING NICELY

Excavation for Beds to Begin as Soon as Track Is Laid.

Work on the filtration plant on either side of First Street, near the Soldiers' Home, is well under way, and, according to those in charge, is making satisfactory progress. A large number of cars have arrived and will be used for the transportation of soil from the excavations. In addition to these cars several "dummy" engines are on the scene and will be used in the course of the work.

Lieutenant Colonel Miller, in charge of the Washington Aqueduct, has applied to the Commissioners for permission to lay a temporary track along Baltimore Street from the present reservoir, across First Street and continuing along Baltimore Street a part of the distance to North Capitol Street. This permit will be granted and then the actual excavation of the beds can begin.

The work on the new "gatehouse" is almost finished and will probably be completed before the excavation for the filtration beds is begun. The beds will take up all the land from the Washington reservoir to North Capitol Street and from Cincinnati Street to the Soldiers' Home, comprising in all about thirty-four acres.

## THE NEWS OF GEORGETOWN

## Bequest to Linticum Institute.

A bequest has been made to Linticum Institute, of Georgetown, in the will of the late Major John E. Weyss, of Georgetown, who for many years resided at 1315 Potomac Street northwest. By the terms of the instrument, which bears the date of October 5, 1897, and which was filed for probate last Thursday, the sum of \$5,000 is left to the institute, to be expended as the trustees may see fit.

This is the first bequest ever received by the Linticum Institute since it was endowed, nearly thirty years ago. The school is one of the few of its kind in the country. The Georgetown University also is left \$5,000 under the terms of the will.

George C. Whiting Lodge, of Georgetown, of which Major Weyss was a member, is the beneficiary under an insurance policy held by the deceased. Louisa Robinson is named as executrix of the estate.

## Disposition of Old Pump-house.

The old pump-house plant adjoining the police station, on Q Street, near Thirtieth, will most likely be used for the purposes of the Police Department. The pump-house will never again be used in the aqueduct service. The officials in charge of the Water Department are perfectly willing to sell the property to the Police Department. If such a sale is made in all probability the old pump-house building will be converted into a stable.

## FORTUNE TELLING

Does not take into consideration the one essential to woman's happiness—womanly health. There is many a woman whose future seems absolutely unclouded who is marked by her own condition for future disappointment and distress.

The woman who neglects her health is neglecting the very foundation of all good fortune. For without health love loses its lustre and gold is but dross.

Womanly health may be retained or regained by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries the drains which weaken women, heals inflammation and ulceration and cures female weakness. It makes weak women strong, sick women well.

Dr. Pierce offers \$500 reward for women who cannot be cured of the above diseases. His "Prescription" has been so successful in curing thousands of cases in the past third of a century that he makes this remarkable offer to show his confidence.

"I have taken six bottles of Dr. Pierce's Favorite Prescription," writes Miss M. Pyfe, of Orlino, Simcoe Co., Ontario, "and two bottles of 'Pleasant Pellets' as you advised for congestion of uterus, ovaries, and weakness, and can safely say that your medicine has been the means of restoring me to good health again, which I had not had for over three years, until taking your medicine. I thank you very much for your kind and prompt attention to my letter asking advice."

"Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases.

Dr. Pierce's Pleasant Pellets clear the complexion and sweeten the breath.
